Layered CHOOSE TO CREATE COLLECTION

Choose to pour personality into your flooring

The preconfigured design options in our accessible 'Choose to Create' collection make it a quick and easy process for you to create your own personalised textile flooring solution. Our brand-new, on-trend '**Layered**' design theme offers you even more inspiration, for **truly illuminated floors**.

Choose between various, high-quality carpet cloths and 3 strong backing options to achieve stunning layer effects and select the performance/comfort balance required for your project.

Discover the new LAYERED styles and their preconfigured design options in this brochure and on the arc edition website.

1/

Give your imagination the reins with 'Layered'

Our designers had a lofty ambition: to design an artistic theme that captures shifting light, colours and forms, inspired by both visual arts and the natural world with its multiple design elements, such as reflections on ice or water, translucent leaves or foggy nature. Layered design creates graphic compositions on many levels. The result? Captivating visual effects that don't hold back when it comes to drama.

2/ the multifaced power of layered colours

Across all of its designs, the **Layered** collection reflects soulful, on-trend colours combined with misty grey shades and accents in blue, green, brown as well as muted pops of pastel pink, yellow or lilac.

All tones are featured in our colour bank 'Spectrum', a balanced selection of 'ready to go' shades destined for on-trend project zones exuding comfort & strength.

warming yellow

Layering yellow hues creates an array of golden tones that can be used to set the scene or as a pop of colour on top of foggy grey. The brightening effect elevates the décor of a space, lifts spirits and inspires positivity and enthusiasm.

3/ The 'Layered' designs ready to be personalised

The digital wave theme that dominates the **Illusion** design invites you to go with the flow. In **Reflex**, a geometric blocking pattern adds a modern 3D experience to a shifting interplay of hues. Highlighting the randomness and asymmetrical organic forms found in the natural world, **Shady** presents soothing and calming translucence. Fans of subtle modern art pieces will appreciate **Strobo**, which hints at brush strokes and displays a unique aesthetic sensitivity.

A woman with blonde hair and blue eyes is the central figure, looking slightly to the side. She is wearing a large, ornate necklace with intricate gold and blue designs. Her head is adorned with a headpiece featuring a large red feather and a black band. She is surrounded by lush green foliage, with a large fern leaf in the foreground. The overall mood is exotic and artistic.
